

## **Cryptography Matching Workbook – Answer Key**

1. DES → I. 56-bit symmetric block cipher
2. 3-DES → G. Applies DES three times
3. Blowfish → C. Designed by Bruce Schneier
4. RC5 → E. Data-dependent rotations
5. RSA → A. Public-key cryptosystem
6. Diffie–Hellman → J. Key exchange algorithm
7. ECB → B. Independent block mode
8. CBC → H. Uses previous ciphertext block
9. ECC → D. Smaller keys, equivalent security
10. Quantum Cryptography → F. Uses QKD principles
